Education

SEDC
2022 - 2023

UACS
2010 - 2015

American School Macedonia
2006 - 2010

Primary School
1998 - 2006

Work Experience

Particles LTD (Ohrid) 2025 - Present

- Developing web applications using React.js, Next.js, C#, and Node.js
- Collaborating with cross-functional teams to enhance customer interaction systems
- Working on and providing Zoho CRM integration, including custom modules and API usage
- Undergoing training in Linux system administration and PowerShell scripting to expand DevOps and automation skills

Catalyst (Skoopje) 2024 - 2025

- Leading the design and development of Catalyst, a custom Next.js web application focused on seamless UX and modern functionality
- Managing SEO strategy, including keyword research, structured data, and performance analytics
- Building and deploying dynamic content (portfolio, services, etc.) with Framer Motion, SCSS, and TypeScript
- Collaborating with clients to deliver tailored web, design, and marketing solutions that align with business goals
- Driving the agency's strategic vision, fostering a culture of innovation and quality across all projects

LearnHub (Skoopje) 2024 - 2024

- Contributed to the development of a large-scale platform supporting the IT community in Macedonia, in collaboration with developers, DevOps engineers, project managers, and designers
- Focused on building the frontend using Next.js, TypeScript, and SCSS, delivering a modern and responsive user interface
- Worked closely with UI/UX designers to implement accessible and user-friendly layouts
- Integrated frontend components with a PHP-based backend, ensuring smooth functionality across the platform
- Supported initiatives to connect aspiring IT professionals with mentorship, real-world projects, and educational opportunities

Sienna Pastery Boutique (Skoopje) 2022 - 2024

- Designed and developed the frontend using React.js, collaborating directly with the client to align on goals and deliverables
- Built responsive, user-friendly interfaces with optimized performance using styled components
- Developed a robust cart system to improve the browsing and ordering experience
- Deployed the project on Vercel for streamlined testing and multi-device compatibility
- Currently planning migration to a dedicated hosting platform with domain setup
- Preparing the backend development phase using Node.js and MongoDB to expand functionality and enhance performance

MM9 Machinery (Prilep) 2021 - 2022

- Collaborated in a 3-developer Agile team to build a full-stack solution for a client in the corrugated box manufacturing industry
- Responsible for designing and developing the frontend using React.js, with a focus on responsiveness and modern UI/UX
- Held regular client meetings to gather requirements, share progress, and ensure the product met business goals
- Built responsive, styled components optimized for mobile and tablet users to ensure a seamless experience across devices
- Prioritized performance optimization and clean interface design to enhance usability and overall speed

Tinex (Skoopje) 2018 - 2020

- Managed day-to-day operations of a large retail location, ensuring efficient storage, handling, and distribution of goods
- Oversaw the import of goods from domestic and international suppliers, and managed the export process for expired or unsold inventory back to vendors
- Conducted regular inventory audits ("popis") and maintained accurate stock records
- Entered inventory data for forecasting and helped identify high-demand products
- Coordinated product orders and restocking with suppliers to maintain optimal inventory levels
- Implemented strategies to improve supply chain efficiency, reduce waste, and optimize space and resource usage
- Supervised retail staff and collaborated with other departments to ensure smooth logistics and timely product availability

Forza Wine Bar & Restaurant (Skoopje) 2015 - 2018

- Managed daily operations, ensuring premium service quality and guest satisfaction
- Acted as the point of contact for customer and supplier relationships, contributing to public relations efforts
- Handled financial tasks, including daily cash counting, revenue tracking, and closing procedures
- Developed staff schedules, coordinated workflow, and ensured adherence to service standards
- Assisted with inventory management by creating drink order lists for the bar and placing orders with suppliers
- Supported event planning, including setting tables, managing reservations, and ensuring smooth event execution
